

## Overcoming Evil with Good

It is a great injustice that so many innocent people, especially the most vulnerable, are suffering in this evil war in Ukraine.

This grandmother in the picture to the right, who came to us with her three grandchildren, escaped from her village in the occupied zone in Ukraine after Russian soldiers shot and killed her son and his wife in their own home. She is now raising her grandchildren in Poland by herself and is being provided aid and care by our Ukrainian brethren there.

The Director of the children's hospital in Kyiv asked us for additional help since there is an ever-increasing number of orphans due to the war. We are now providing even more food, clothes, medicine, and other kinds of aid to these orphans, like these two recent arrivals.

*We invite you to hear the Director and see some of the children on a personal video.*

*The director wanted to express her thanks to you "personally" and update you on the work.*

With your help GRM provides enough food to feed over 7,000 refugees every day, like the grandmother and those at the children's hospital, and provides other kinds of humanitarian aid to help them be safe and warm. This war is not over, and there are literally thousands of people that depend on the aid we provide to survive. ***It is vital to not only keep providing this level of aid but now also to increase it.*** Another cold, hard winter is coming soon.

Every donor's generosity in God's name is having a profound impact for the Kingdom in Ukraine. Most of the food and aid we provide to the refugees is being distributed through our brethren even to the most dangerous parts of Ukraine. As they go, they are preaching and living the Gospel everywhere along their way. And the church is growing with many new converts.

What is happening because of this war is a great injustice. But we can help bring justice and help make things right by **overcoming evil with good** (Romans 12:21).

**We are working to raise \$350,000. This will allow us to keep our current level of commitments to help those who depend on us for life's most basic needs and to increase our help throughout 2024.**

Would you make a generous gift to help the grandmothers, babies, children, and thousands of other victims of this war? Please see the enclosed card or scan the QR code below to help with these efforts.

Please watch the short (30 seconds), direct, personal, message to you from the Director of the children's hospital in Kyiv, Ukraine, at [www.sunset.bible/grm](http://www.sunset.bible/grm) or scan the QR code below.

Thank you for caring enough to make this injustice right.
